## About the Artist

Born in Egypt and raised in Saudi Arabia, which had a great influence on his childhood. Getting exposed to a Khaleeji culture and the TV he grew up watching meant a whole different kind of experience. Tariq likes playing video games on a daily basis. He enjoys listening to EDM, Rock, and 80's pop music. He's a huge nerd, loves comic books, anime, and cartoons. If there's something anyone can tell you, it's that he's a Batman fanatic. "I'm not sure how this started, but all I've known through my life is that he's my hero. Maybe it's that we can all relate to him somehow? Maybe it's the black".
